# CARBON CYCLE: WOOD PRODUCTS & SUSTAINABLE FORESTRY

older forests store carbon, which released as they decay or burn

growing forests absorb carbon dioxide and release oxygen

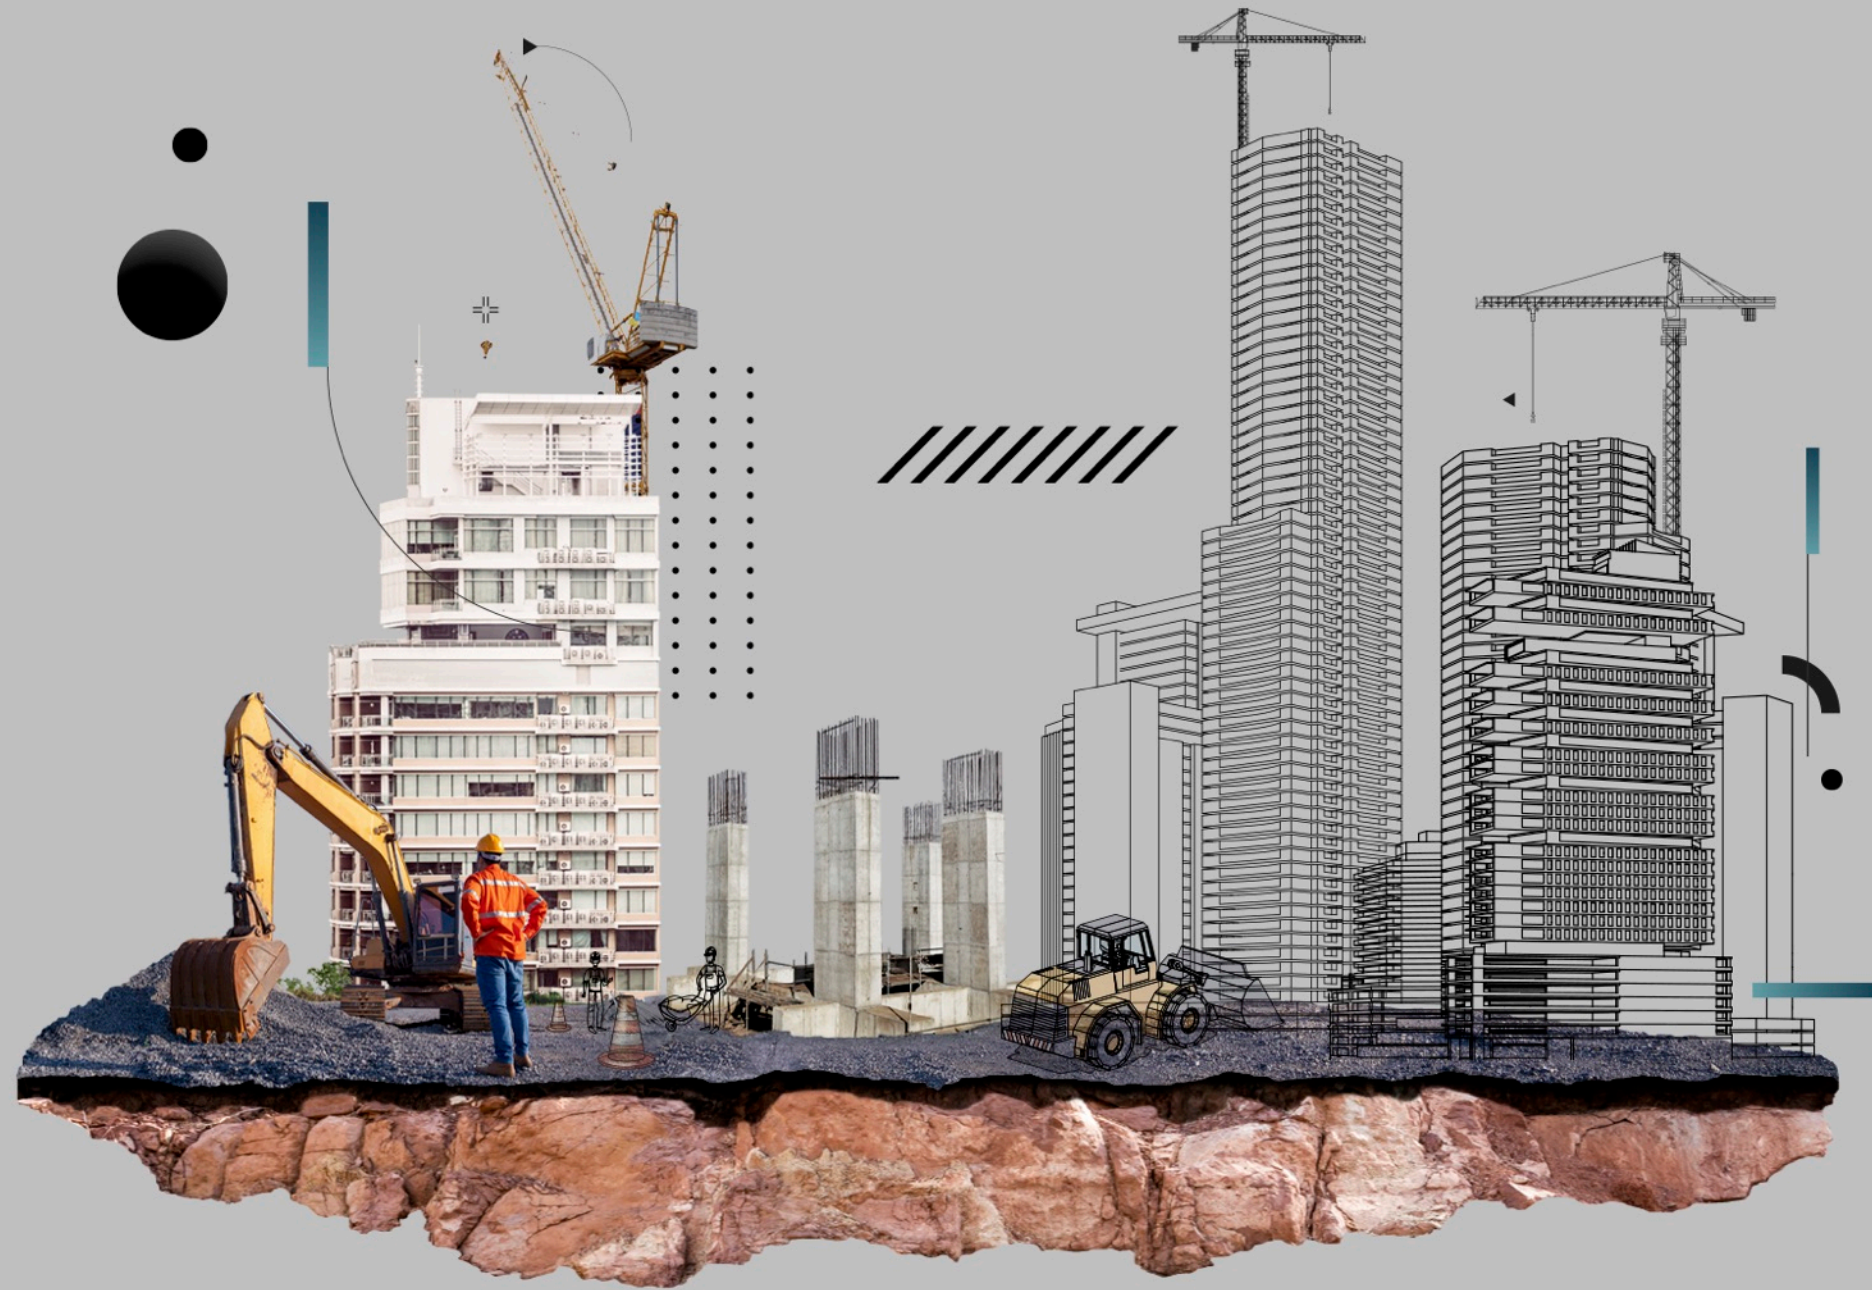

harvesting for wood products ensures that carbon continues to be stored

natural regeneration and planting being the cycle

wood buildings store carbon and it remains stored over the lifetime of the building

carbon absorbed  
 $\text{CO}_2$

$\text{O}_2$   
oxygen released

**NEUENOTION DESIGN**  
neuenotion.com

The Expo2020 Dubai logo has been inspired from the rich traditional Arabic architecture. While a form of mathematical and geometrical shapes, it is simple in design. The logo is based on the traditional pattern of contemporary design. The rich traditional architecture used as the basis for this design is timeless and always in hearts and memories of Arab nations, if not all around the world. The typography in this design is self expressive and clear. The 'PO' in the word 'EXPO' been used as '20' as well to show partnership and cooperation, as well as functionality, flexibility and innovation in the new Expo2020 Dubai. The finely designed details of the logo, corners and edges represent luxurious lifestyle of Dubai and colors illustrate the energy and life in this region. The continuity in forms of letters stand for connectivity. The logo can be used easily on any print or digital screen in any size from a 3.5"x2" card to a large street poster.
